FIGHT FOR REPEAL OF GUARANTEE ON WHEAT

Representatives and Senators From Wheat Belt States to Launch Campaign.

Washington, Aug. 9— A campaign for repeal of the $2.26 wheat guarantee will be launched next week by representatives and senators from wheat belt states, it was believed here today. Members of congress and representatives of farmers organizations told the senate agriculture committee that the guarantee is not an aid but a detriment to the farmer and argued for its repeal. Action by the committee was deferred.

T. C. Atkeson, Washington representative of the National Grange, declared the public is misled by the guarantee. He claimed that in some districts farmers are getting as little as $1.13 a bushel for their wheat.

Senators Capper, Gronna and others said the methods of grading wheat under the guarantee are unjust and that millers who purchase wheat at a low price are grinding in first class flour.

Following the meeting Gronna promised a statement on the wheat situation and indicated he will introduce a bill for repeal of the guarantee.
